GHG Inventory Reporting Template

Part 1: Descriptive information

Descriptive information	Company Response
Company name	
Description of the company	
Chosen consolidation approach (equity share, operational control or financial control)	
Description of the businesses and operations included in the company's organizational boundary	
The reporting period covered	
A list of scope 3 activities included in the report	
A list of scope 1, scope 2, and scope 3 activities excluded from the report with justification for their exclusion	
The year chosen as base year and rationale for choosing the base year	
Once a base year has been established, the chosen base year emissions recalculation policy. If base year emissions have been recalculated, the context for any significant emissions changes that triggered the recalculation.	

¹ If a company has different base years for different scopes, base year information should be provided separately for each scope. Establishing a base year is required for scope 1 and 2 emissions, and required for scope 3 emissions when companies choose to track performance or set a reduction target.

Part 2 : Greenhouse gas emissions data

	Scopes and categories ²	Metric tons CO ₂ e	Metric tons CO ₂ e (Base Year)
	Scope 1: Direct emissions from owned/controlled operations		
	Scope 2: Indirect emissions from the use of purchased electricity, steam, heating, and cooling		
	Upstream scope 3 emissions		
	Category 1: Purchased goods and services		
	Category 2: Capital goods		
	Category 3: Fuel- and energy-related activities (not included in scope 1 or scope 2)		
	Category 4: Upstream transportation and distribution		
	Category 5: Waste generated in operations		
	Category 6: Business travel		
	Category 7: Employee commuting		
	Category 8: Upstream leased assets		

² Further disaggregation of certain categories may be necessary. Additionally, if categorization of scope 3 activities is not followed as prescribed in the standard, indicate where they are included.

	Other		
	Downstream scope 3 emissions		
	Category 9: Downstream transportation and distribution		
	Category 10: Processing of sold products		
	Category 11: Use of sold products		
	Category 12: End-of-life treatment of sold products		
	Category 13: Downstream leased assets		
	Category 14: Franchises		
	Category 15: Investments		
	Other		

requirements of the GHG Protocol Corporate Standard and the Scope 3 Standard. Companies may use any format to report emissions, provided that it contains all of the reporting requirements. This sample reporting template includes scope 1, scope 2, and scope 3 emissions and contains required information only. Companies should also report optional information where relevant.

³ If the reporting company is an initial sponsor or lender of a project, also account for the projected lifetime emissions of relevant projects financed during the reporting year and report those emissions separately from scope 3.
